Month	Week	Lesson #	Focus	IELTS		Common mistakes	Cognitive skills	Week breakdown
Month 1	Week 1	1	Reading - Listening	Exercise type: **Gap filling**	Reading: All parts Listening Part 1 + 4	1. Pick words randomly which are irrelevant to the context (esp Listening) 2. Cannot locate information and get lost while listening/reading 3. When facing complex sentences, analyze random words they know instead of reading the whole idea	1. Contextual analysis (Predict and analyse based on context) 2. Selective scanning (Identify the structure and locate information) - Keyword underlining - Paragraph mapping 3. Syntactic parsing (Break down words/phrases in a complex sentence) - Chunking - Contextual prediction	1. Reading - Predict information gap: content, grammar - Locate information 2. Listening: - Catch the sound better: Dictation --> Shadowing *(e.g. nối/nuốt/biến âm, weak forms, spelling, number)* - Predict information gap: content, grammar - Locate information - Common traps: Self-correction, spelling, listing (Part 1)
	Week 2	3		Exercise type: **- MCQ** **- T/F/NG + Y/N/NG**	Reading: All parts Listening Part 2 + 3	1. Word-matching trap: Matching words literally without reading/listening to the full idea 2. Failing to spot distractors and nuances 3. Over-inferring: - Confusing fact (T/F/NG) with the author's opinion/claim (Y/N/NG) - Choose "False/No" when it's actually "Not Given" (over-inferring)	1. Logical reasoning 2. Distractor analysis (recognise the architecture of traps) - 4 core traps: Word-for-word, Over-generalization/specificity, Opposite meaning, Mentioned-but-irrelevant - Be careful of quantifiers: all / most / some / only 3. Elimination reasoning (rule out by logic, not by gut feeling) 4. Semantic Matching (match by meaning, not by words) 5. Paraphrase Journal: log how the text paraphrases to predict it later	1. Reading: All skills 2. Listening: *Bonus:* *- Self-correction trap: speaker changes the answer midway (actually, sorry, I mean…)* *- Opposite-meaning trap: same word heard but with not/fail to/prevent* *- Part 3: multiple speakers → track who says what*
	Week 3	5		Exercise type: **Matching** - Headings - Information	Reading: All parts Listening Part 2 + 3	1. (Reading) Reading every word of a paragraph → wastes time, still misses the main idea 2. (Reading) Mistaking a supporting detail for the main idea (misled by small keywords) 3. (Reading) The paragraph with the keyword ≠ the paragraph with the answer (word-matching trap in Matching Info) 4. (Both) Fail to distinguish among matching options 5. (Listening) Falling behind one question and then losing the whole chain after it	1. Gist extraction (distinguish the global main idea and detail) - Topic extraction: summarise a paragraph as one noun phrase - Scan & skim: read first + last sentence of a paragraph 2. Selective scanning (reuse from Week 1) - Anchor words: unchangeable anchors (names/numbers/terms) vs core-meaning anchors (1 verb + 1 noun) - Information type classification: a description / a reference / an example / a reason / a comparison - Signposting: catch shift words that flag the answer 3. Syntactic parsing (reuse from Week 1) - Distinguish among matching options	1. Reading: All skills 2. Listening: All skills
	Week 4	7		Exercise type: - Listening: **maps** - Reading: exam tips	Reading: All parts Listening Part 2 + 3	1. (Maps) Losing orientation when the audio describes a moving route 2. (Reading) Time management 3. (Both) Not learning from past mistakes (no error log)	1. Listening Maps: Spatial processing 2. Exam technique: Test pacing - Optimal order of question types within one passage - Time allocation; skip-and-return strategy to protect easy marks 3. Study technique: - Error analysis - Leverage reading/listening beyond answer correction: vocabulary, grammar, idea	1. Reading: - Map skills - Exam and study technique 2. Listening: Exam and study technique

Month	Week	Lesson #	Focus	IELTS		Common mistakes	Cognitive skills	Week breakdown
Month 2	Week 5	9	Speaking	Fluency & Coherence Lexical Resources	Speaking Part 1	1. Hesitant replies 2. Replies with little content	1. Idea development via AREA framework: Answer – Reason – Example – Alternative 2. Lexical resources: - Lexical chunks: Instead of "I very like it" → "I'm really into it", "it's right up my alley". - Topic-based collocations - Circumlocution: Explain when forgetting the word: "florist" → "the person who sells flowers".	1. Fluency & Coherence 2. Lexical Resources
	Week 6	11	Writing	Task response	Writing Task 2	1. Stuck with brainstorming 2. Build weak arguments: - Claim without reasoning - Circular reasoning - Irrelevant reasoning - Example instead of reasoning - Logical gap - Overgeneralization	1. Brainstorming: - Aspect: PESTLE, Discussion clock - Stakeholder - Level of effects/impacts 2. Guiding questions for idea development: - Why it is true/convincing? - Why it is relevant? - Why it is important? - So what? 3. Critical thinking, system thinking, logical thinking	1. Brainstorm and develop ideas for familiar topics 2. Brainstorm and develop ideas for strange topics
	Week 7	13		Task Response Coherence & Cohesion	Writing Task 2	1. Fail to fully answer the question 2. Build weak paraphraphs (related to writing techniques) - Unstructured: lack topic sentence, off-topic idea development - Too many ideas in one paraphraph but underdeveloped - Misuse of mechanical connectors	1. Essay-type response logic: - Opinion - Discussion (concession + rebuttal) - Problem - Cause - Effect - Solution - Advantages/Disadvantages - Two-part question 2. System thinking: Build a strong paragraph with PEEL, cohesive devices (both mechanical and natural), clear central idea per paragraph	1. Essay types 2. Build parapraphs
	Week 8	15		Lexical Resources Grammar Range and Accuracy Timed	Writing Task 2	1. Use too simplified/complicated grammar/vocab 2. Bad time management	1. Context-based lexical use 2. Paraphrasing	1. Lexical Resources + Grammar Range and Accuracy: - Grammar structures - Topic-based vocabularies - Paraphrase exercises 2. Timed practice in class and selective topics for group brainstorm
Month 3	Week 9	17	Speaking	Fluency & Coherence Grammar Range and Accuracy	Speaking Part 3	1. Answer from a personal angle (instead of a societal view) 2. Claim without reasoning 3. Absolute claims ("all people…", "it's definitely…") - no hedging	1. System thinking (from social view) 2. Advanced reasoning	1. Theory + Sample + Practice 2. Practice
	Week 10	19		Fluency & Coherence Grammar Range and Accuracy	Speaking Part 3	1. Lack or misuse of connectors between ideas 2. Lack examples to support ideas	1. Discourse & Idea-linking 2. Deep-dive examples	1. Theory + Sample + Practice 2. Practice
	Week 11	21		Fluency & Coherence	Speaking Part 2	1. Running out of ideas before 2 minutes / long pauses 2. Flat listing of facts with no narrative arc (no build-up or climax)	1. Storytelling architecture: - 5W1H - Story Arc: Mở đầu → Diễn biến → Cao trào → Kết thúc 2. Past - Present - Future Strategy	1. Theory + Outline + Sample 2. Outline + Sample + Paraphrase practice

Month	Week	Lesson #	Focus	IELTS		Common mistakes	Cognitive skills	Week breakdown
	Week 12	23		Lexical Resources Grammar Range and Accuracy	Speaking Part 2	1. Repeating basic vocabulary; no topic-specific range 2. Freezing/stopping when a word is forgotten 3. Word-by-word translation from Vietnamese → unnatural collocations 4. Same phrasing reused across every cue card (no paraphrasing)	Lexical & Paraphrasing: - Topic-based vocab - Lexical chunks + collocations - Circumlocution	1 + 2. Topic-based practice, with an increasing level of difficulty
Month 4	Week 13	25		All four (timed)	Speaking Part 2	1. Poor time control: too long on intro, rushing the ending 2. Accuracy drops when speaking fast (tense/agreement slips)	x	1 + 2. Topic-based practice, with an increasing level of difficulty
	Week 14	27	Writing	Task Response Coherence & Cohesion	Writing Task 1	1. List every data point instead of selecting key features 2. Overview paragraph does not capture all key patterns 3. Arrange key features in a disconnected and hard-to-understand way	1. Key features selection 2. Topic-based vocabularies	1. Graphs with time period 2. Graphs with no time period
	Week 15	29		Task Response Coherence & Cohesion	Writing Task 1		1. Key features selection 2. Topic-based vocabularies	1. Diagram/Process 2. Map
	Week 16	31		All four (timed)	Writing Task 1	x	x	1. Topic-based vocabularies + grammar overview + timedm practice 2. Timed practice
Month 5	Week 17	33	Review and timed full-test practice	Timed	x	x	x	1. Knowledge review for all 4 skills 2. Timed full-test practice
	Week 18	35	Timed test and test correction	Timed	x	x	x	1. Timed full-test final exam 2. Test correction and Personalized next steps
